

Review of Group Project

C. Funck & M. Dittberner

May 10th 2013

1 Done so far...

- Simulation procedure automatized
- Build a DB with simulation data
- "Toolbox" to visualize the simulation data

2 Further steps, ideas

- Poster of Qdot & solar cell processing
- Documentation: Interpreting results, MATLAB

3 Questions

- Simulation of other materials?
- What is the date of presentation?
- How relevant is MATLAB work, are the Simulation data?
 - Storage on a server?
 - Documenting MATLAB work (User, Maintainer)?
 - Installer for scripts and functions (Toolbox)?
